in the Ninth Inning-Results of Contests on Eastern Dlamonds.

By Telegraph to The Times. SAN FRANCISCO, April 24 .- [By the Associated Press.] The phenomenal Balsz was again in the box for the Los Angeles team, and but for his own wild throw to first base in the sixth inning, he would have shut the home team out without a run. The Los Angeles men had a picnic, winning by a score of 10 to 1. The San Francisco batters could do nothing whatever with the pitching of Balsz. They got one hit in the sec-

and inning, another in the third and their last in the sixth.

In the third and fourth innings Los Angeles opened a tremendous broadside on Hoffman, and hammered out nine safe hits in the two innings. The score follows:

FOSSIL REMAINS.

GOODLAND (Kan.,) April 19.— GOODLAND (Kan.,) April 19.—[Correspondence.] This part of the State of Kansas has long been known among scientists as being the center of some of the most remarkable fossil remains ever found in this country, and nearly every year expeditions have been sent to this section by various colleges and scientific societies for the purpose of getting specimens. It has been supposed that the "cream" that been skimmed off by those

who have been digging in this vicinity for the past ten years, but a discovery made by William Johnson a few days ago shows that there is still a large field for investigation. Mr. Johnson reports that he has found the fossif remains of some gigantic animal in a swamp on his farm, the like of which he has never seen or heard of.

While digging a trench through the Los Angeles' New Pitcher's

While digging a trench through the swamp for the purpose of reclaiming the land, the workmen threw out a bone which at once attracted attention bone which at once attracted attention by its peculiar formation and size. It was evidently the leg bone of some prehistoric animal and a search was at once begun for the rest of the remains. This search was so successful that the entire animal was unearthed and then it was found that something which is much larger than a mastodon was found to have been buried in the old peat bed, which constituted the bottom of the swamp. The bones show that the animal must have stood not less than fifmal must have stood not less than fif teen feet high and was evidently of the deer kind, as the bones are slender and not of the ordinary elephantine struc-ture of those which have previously been found in this vicinity.

LOST TREASURE.

CANYON CITY (Colo.,) April 20 .- [Corespondence.] It is learned here that a company is being organized in Chicago with the ostensible object of searching for a lost treasure on the Purgatoir River, or it is called in this country the "Picket Wire." An old legend, which dates somewhere back in the days when this country was under Spanish rule, says that a wagonload of gold was buried by some army officers rather than let it fall into the hands of the Indians. The company which is now being formed claims to have such perfect data that they will be able to unearth the gold without any trouble. According to the story of a man here who is on the inside of the matter the company is to be organized under the laws of Illinois, and will invest \$5000 in looking after the lost gold.

This money is to be raised by issuing shares in the Purgatory River Gold Company, and each share is valued at \$100, but is to be sold at half price and the balance is not to be called for unless there is every reason to believe that the lost treasure is to be found. As the legendary history of the lost gold has long been believed to be a myth and has long been believed to be a myth and the whole country has been prospected time and again for the lost gold with no success, it is doubtful if any of the "company" gets any profits out of the scheme except the mea who are engineering it.

There was great excitement in the church. The woman was arrested. The flames were extinguished with much difficulty.

The Coming Week in Congress. WASHINGTON, April 24 .- In contrast with the lively scenes of the past week the proceedings in both branches of Congress during the coming week promise to lack public interest. The managers in the House have decided to devote the entire week to the consideration of appropriation bills. Tomorrow the Diplomatic and Consular Appropriation Bill will be called up. As that measure makes radical changes in

the existing law it will doubtless be at-tacked by its opponents upon the floor. Appropriation bills will also figure largely in the Senate proceedings. The debate on the Chinese bill will occupy all of tomorrow and the bill will proba-bly go to the House Tuesday with the Senate amendments.

BRITISH CRITICISM.

Harrison's Silver Negotiations Declared to be a Political Dodge. London, April 24.—[By Cable and Associated Press.] The Times says: President Harrison's rumored negotiations for a silver conference are ob viously an evasive and illusory attempt to temporize with the soft money par tisans while escaping a rupture with the mercantile interests in the Eastern and Central States. We fear that another period of uncertainty and fluctuation has been initiated by his electioneering movement without the slightest chance of any permanent international settlement of the problem, or real and lasting improvement in the market."

The well-known currency authority, ottoman Haupt, writes to the Times to point out that almost all the great commercial nations are wholly users of gold or sellers of silver; that the opening of continental mints to the free coinof continental mints to the free coinage of silver is, therefore, out of the question and no practical result can follow the suggested conference. He thinks free coinage of silver for private parties by the Indian mints might be suspended to pave the way for "a sort of limping double standard," such as exists on the continent or later on even the adore continent, or, later on, even the adop-tion of a regular gold currency in which silver might play a certain part, though its circulation should not be increased.

Were Prepared to Run Out Rustler but Did Not Bargain for a Fight With Federal Troops,

By Telegraph to The Times. DENVER (Colo.,) April 24.—[Ry the Associated Press.] The Republican's special from Cheyenne says that Maj. Egbert, in command of the Seventeenth Infantry, which relieved three com-panies of the Seventh Cavalry from Fort McKinney as guards of the cap-tured stockmen, started from Fort Fetterman at 7 o'clock this morning. The train was preceded by a pilot engine and caboose, the latter filled with a con-struction crew and tools to repair any possible damage to the tracks.

At 4 o'clock this afternoon the train pulled into Fort Russell depot. Several hundred people awaited its arrival. Two long lines of soldiers were drawn up at the depot. One was stationed along the length of the train, the other a short distance toward the fort. Maj. Egbert here received orders to hold the men in his charge until further orders. The baggage was first unloaded, then the twenty Texans came forth upon the platform and stood in a group, guarded by soldiers and awaiting orders. They were all young looking, but looked very were all young looking, but looked very tough, their recent experience giving them the appearance of hard young citizens. The last to appear were twenty-two cattlemen who looked tired and worn. The Texans were first marched away, guarded on every side by soldiers. Several hundred yards behind were the cattlemen, closely guarded.

Governor Barbour tonight stated in answer to a question propounded by a large number of reporters, who visited him in a body, that he had no knowledge whatever of the intention of, the cattlemen to make their invading trip. He also said that he had not decided exactly what will be done with the captured men; for the present they will be kept at Fort Russell, and when the time comes they will be turned over to the civil authorities. The Orphan Asylum Debt. There is a debt of about \$70,000 on the new Sisters' Orphan Asylum, on Boyle Heights, and the interest account on this indebtedness is quite a heavy burden for the managers to carry. To meet the interest payments, close econ omy is required, and very frequently necessary expenditures have to be cur-tailed. A number of ladies are now at work on a plan by which they hope to relieve the sisters from the burden Each of these ladies is trying to get twenty subscribers to pay \$5 annually on this interest account, and if they are successful the problem will be solved.

Look over these symptoms: headache, obstruction of nose, discharges falling into throat—sometimes profuse, watery, and acrid, at others, thick, tenacious, mucous, purulent, bloody, putrid and offensive; eyes weak, ringing in ears, deafness; offensive breath; smell and taste impaired, and general debility. You won't have all of them at once; probably only a few of them; but they mean Catarrh.

And the proprietors of Dr. Sage's Catarrh Remedy mean to cure it, if you'll let them, no matter how bad or how long standing. If they can't, they'll pay you \$500 in cash. They mean that, too, just as it's printed.

They offer you the money—or a certain cure, if you'll take their medicine. But if they weren't certain of the cure, they'd never offer you the money.

Vile cod-liver oil has lost its vileness in Scott's Emulsion and gained a good deal in efficiency.

It is broken up into tiny drops which are covered with glycerine, just as quinine in pills is coated with sugar or gelatine. You do not get the taste at all.

The hypophosphites of lime and soda add their tonic effect to that of the half-digested cod-liver oil.

THE IMPORTED "Present King" Willstand for a limited number of mares, besides those of his owners, for the solson of 1892, at the San Rafael Ranch, Garvanza,

of 1892, at the San Rafael Ranch, Garvanza, Cal.

"PRESENT KING" was foaled in 1886 in Nottinghamshire, England, and took several prizes at fairs in that country, one amongst them being the first prize as a foal at the Footier show in 1886. He was brought to the United States in 1888, and has only been exhibited once, when he took the first premium at the Los Angeles fair of 1889. He stands if hands; is black with white spot on forchead; weight about 1800 pounds. He is entered in the English and American Shire Horse Stud Books, and his pedigree includes a long list of prize winners. He is a very sure foal-getter, and a large band of his foals can be seen on ranch.

Terms: \$25 for the season, or \$10 for single leap, payable at time of service; marcestaken at their owners' risk; the usual return privileges. For pedigree and further particulars apply to C. S. CAMPBELL-JOHNSTON, San Rafael Ranch, Garvanza, Cal.

SPORTING NEWS.

Athletic Club's Entertaiment Tuesday Evening.

An Attractive Programme Arranged for the Occasion.

fuch Interest Being Manifested in the Chess Tournament.

Benefit Baseball Game at the Athletic Club Grounds Between a Local Picked Nine and the Anaheims-Sporting Notes.

The Los Angeles Athletic Club's entertainment, which will be held at the Los Angeles Theater tomorrow evening, is the all-absorbing topic among the members of that deservedly popular institution and their friends. For some weeks past the active 'members have been working hard, physically and mentally, to insure the success of the event, and that they will achieve their aim is already assured, judging from the ravenous demand for tickets.

A feature of the programme, which will doubtless prove a drawing card, is the exhibition to be given by the ladies' class under Prof. Bessing.

Other events of more than ordinary interest will be the wrestling bout between Paul Flammer and Q. Spalding, the set-tos between Sam B. Dewey and Frank Liddell, Jim Winston and Billy Shannon, and other well-known amateur boxers, the tumbling feats of Fay Stephenson's troupe of athletes, Nordlinger's club swinging, the pyramids, and general gymnastic classes.

The affair promises to be one of the social events of the season, and the seldom-seen sign of 'S. R. O.'' will undoubtedly be hung out in front of the theater long before the curtain rises on the athletes.

CHESS TOURNAMENT.

Considerable interest is being mani-fested in the local handicap chess tournament, which opened on Wednesday last, and the event is proving successful beyond the hopes of even the most san-guine of its enthusiastic projectors. C. F. Pierce heads the list up to the present time with a clean score of 6 wins, but the chances are that George Thompson will run him a close race for first honors, and will probably get second prize. An interesting fight will be made for third place, as there are a number of players who have good chances for it. Following is the score up to date, with the classification of the players:

Pierce (class 1)..... Pierce (class 1).

Thompson (2).
Buck (3).
Miller (3).
Hanbrook (4).

Cooke (4).
Clark (4).
Keach (5).
Brownstein (5). Keach (5)..... Brownstein (5)..... White (5)..... The tournament will be continued

this week at the Chess Club and the Los Angeles Athletic Club.

A game of baseball for the benefit of Charley Farrell was played at the Athletic Club grounds yesterday afternoon between a picked nine of locals and the Anaheim club, which resulted in a victory for the home team by a score of 14 to 9. As long as the ball was being batted and thrown into the ruts and ravines formed in preparing the grounds for the Athletic Club's annual field day, the agriculturalists were at home, and kept in the lead, but as soon as the home team began hitting the sphere on smooth ground the visitors went to pieces and lost their bearings entirely. The Anaheim club is made up of a lot of erratic sluggers who are liable at any stage of the game to transform a BENEFIT BASEBALL GAME.

The Analesim club is made up of a lot of erratic sluggers who are liable at any stage of the game to transform a wild pitch into a three-bagger, and in

yesterday's game they maintained their reputation in this respect.

The game was a benefit contest for Charley Farrell, who broke his leg while trying to break the losing record of the Tufts-Lyon club a-few weeks ago while playing on the Anaheim grounds, and the young man will receive about \$40 as a result of the generosity of the Anaheim boys, the Athletic Club and President Vanderbeck. The score tells he story of the game, as follows:

WILLIAMS-DEEMING.

Evidence That the Man Also Lived in Los Gatos.

The mystery surrounding the mas

known in Los Angeles as Williams, against whom a strong circumstantial case has been made out identifying him as Deeming, the fiendish Australian wife murderer, has not yet been cleared up. In fact, the more the matter is investigated the deeper the mystery becomes. Mr. Shooter, his wife and other people who knew Williams in Los Angeles believe that he is no other than geles believe that he is no other than Deeming. Others equally well acquainted with the man take the opposite view. It has been established beyond any question that Williams had several aliases, among them that of Mitchell, and recently Bidwell. One of the Bank of England forgers now lecturing in San Francisco, identified Williams by the published pictures of him as Shear, an ex-convict and bigamist from New York. From this it will be seen that even should Williams turn out not to be Deeming, his record is such, not to be Deeming, his record is such, in connection with his Los Angeles doings that his character will not suffer by the publication. But the identity of Williams-Deeming has not yet been cleared up, and now a new complication has arisen.

A careful examination of the pub-lished tracing of Deeming, alias William's career, together with a printed letter from a little Salvation Army waif, in Northern California, results in developing strong evidence that Deem-ing once lived in Los Gatos, a beautiful little town about sixty miles from San Francisco, and that be there abandoned the little baby girl, whose picture was found in his possession when he was arrested in Australia, charged with one of the most heinous crimes known to

criminal history.

The following letter was published in the Salvation Army War Cry two months ago, and with it some very startling comparisons are made:

PAPA, COME HOME. If Albert Edward Williams, who left his home in Los Gatos, July 27, 1886, will send his address to No. 1139 Market street, San Francisco, he will receive a letter that is waiting for him. Please, dear Jests, send papa home. HENRIETTA WILLIAMS.

It will be remembered that it was in July, 1886, when Thomas Shooter of Los Angeles was in San Francisco at-

Kaiser Wilhelm, Arthur Williams of Rainhill, a fashionable suburb of Liver-pool, and Albert Deeming of Sydney are all aliases of the phenomenal wife murderer, then the above information from Los Gatos gives him another alias There is certainly strong circumstantial evidence that, Albert Edward Williams

George Uhrig, a boy aged about 12 years, the son of a dairyman living out on First street in the vicinity of West. lake Park, was probably fatally injured yesterday afternoon by being thrown from a horse. The boy was riding along Seventh

street, west of the park, when the saddle turned and he was thrown to the ground. His foot caught in the stirrup and he was dragged some distance, the horse striking him on the head with his

The patrol wagon was sent for and the boy was taken to the receiving hospital, where his injuries were attended to by Drs. Bryant and Lasher. An examination showed an ugly wound on the back of the head and hemorrhage from the ear indicated a fracture at the base of the brain. There were also several cuts on the face and legs. Everything possible was done for the little sufferer, and last evening he was resting quietly, but his condition is regarded as critical by the surgeons.

The social given by the Unity Club at the Church of the Unity last Friday evening was a very enjoyable affair socially and from a musical and literary point of view. The participants were Miss Boynton, Miss Walker, Mrs. Day and Messrs. J. P. Fennimore, G. A. Dobinson and Paul Romandy. A number of accessions to the roll of the Unity Club resulted from an appeal by the presi-dent to that effect, and the club will probably take up, in conjunction with other societies here, the work of uni-versity extension, for which the faculty of the State University has announced its willingness to give assistance. The membership of the Unity Club is not bounded by any sectarian lines, nor is it a money-making concern.

THE delegates to the State convention of the Native Sons of the Golden West arrived in the city in force yesterday and found the flags of welcome hanging from the outer walls. The young men are sure of a hearty greeting and we hope their short stay in Los Angeles may be rendered pleasant in every way.

Some remarks have recently been made in these columns touching the "Federal brigade" in Los Angeles and its operations at the primaries on Sat-It is proper to explain that the brigade is not solid, nor is it all in the field as a manipulating machine. The United States District Attorney, the postmaster and his deputies, the internal revenue officer, and at least one of the land officers are not in line with the remainder of the brigade, which is "fighting in the air," as it were.

WE desire to make a valuable suggestion to the editor of the Evening Express, who is trying to play boss and run today's convention. Let him issue a special early edition of his doubleleaded sheet at say 10 o'clock this morning, and therein explain to the delegates his i-m-m-e-n-s-e personal popularity in his own ward, where he received 72 votes out of the 153 electors who cast their votes at the primary on Saturday. How was it that 83 voters had the ungrateful audacity to vote against the customhouse statesman with the baton of the boss in his red right hand?

"THE PARSON" contributes the following brief allegory to the San Francisco Wasp. It seems so eminently true to life and so easily possible as a scrap of history that we produce it:

The devil once bargained for the soul of a young man. The devil agreed to furnish ali the money that the young man could spend, and if he did not spend it as fast as it came his soul was to be the forfeit.

it came his soul was to be the forfeit.

For several years the young man managed to keep ahead of the game by the aid of wine, women and fast horses, but finally the fiend sent him a tremendous sum, which it seemed utterly impossible to get rid of. When the young man as a last resort started a fiewspaper. At the end of three months the devil began to growl, at the end of six months he was savage, at the end of nine months was sad and at the end of a year he owned up dead broke.

The paper went up, but a soul was saved.

LAWRENCE HUTTON, in a recent article in the Forum, draws in his review a striking parallel of Sullivan going through the Southern States upon a professional tour lodged in the best apartments of the best hotels, riding in parlor cars; and of Frederick Douglas traveling over the same roads and visiting the same towns but a few days later and compelled to accept second-class accommodations (upon a fist-class ticket) and to dine, like a leper, in a pen set apart for a contaminated and contaminating race. Mr. Hutton calls the former "the puppet of brutality," the latter "an educated and refined gentleman, whose name will grow in the history of the Nation as a heroic figure, but his mother was black."

Dr. Robert A. Kitto, a young physician and surgeon of Racine, Wis., who has achieved a national reputation as an ovariotomist, has come to the front with a cure for dipsomania which roposes to give to the world-gratis for the good that it may do. He believes that he has discovered an infallible cure for the drink habit, and he gives the following formula:

Dr. Kitto says in a note:

W There is too much thunder and bombast in the W.C.T.U. and allied temperance so-cleties; prayer cannot ecadicate the appe-tite for strong drink. I am satisfied that the prescription used by me is an infallible cure. Hundreds of testimonials from the country are coming to me daily telling of its wonderful effect. Realizing the power of the press I have decided to submit this circular to every editor in the country to be published at least once, so that every poor victim of strong drink may be saved.

THE Rev. Francis Marsten, a Presby terian minister, being requested to open a session of the Ohio House of Representatives with prayer, used these words: "Remember, O Lord, the welfare of these Thy servants, gathered here in this maelstrom of iniquity, fraud and corruption. Thou knowest with what suspicion this Legislature is looked upon by the people of this great Lord, deliver us from the bribes, the bribers and the bribe-takers in our midst, and keep them from the ways of temptation which surround them on every hand, and may their acts be righteous and not corrupt." This prayer, which may be said to go to the very core of politics and to ask divine assistance when it is most needed, instead of uplifting the hearts of all the members as one to the Throne of Grace. was received by a number of members with a violent protest, and it was ever suggested that the clergyman be rought to the bar of the House for contempt, and yet these protesting mem bers would hardly ask the reverend gentleman to pray that they be led into emptation and delivered over to the ribe-giver. If the Ohio Legislature can't stand that prayer it is probably past praying for. A few perfunctory words without asking grace in any parlar direction would do no good.

The Republican Convention Today Some additional lists of delegates to the Republican County Convention are printed in today's issue, and the remainder will doubtless be brought in this morning by the delegates themselves along with their credentials.

The convention assembles at 10 clock this forenoon, and a short session is anticipated, as the amount of business to be transacted is not large.

The composition of the delegations shows a degree of intelligence, strength and independence on their part, which gives promise that the recent attempt made at San Francisco, with the aid of a Federal official of Los Angeles and one or two other persons, to "programme" the convention and settle in advance the choice of delegates to Minneapolis, will prove a failure, should it be tried today. Such an at-tempt deserves to fail. The Republicans of Los Angeles county are their own masters, amply capable of making their own choice of men and measures, without prompting from abroad or "steering" at home in obedience to official orders.

The county, it is justly expected, will demand of and receive from the convention the fullest deserved recognition in the distribution of honors and responsibilities.

The New Steamship Line.

The steamship Mineola, of the new Atlantic and Pacific line, is now on her third voyage from New York to this Coast. A cablegram to the local agents announced her safe arrival at Coronel, Chile, in thirty-nine days from New York. As the worst part of her trip is now over there is little doubt that she will arrive safely, making the entire voyage to San Francisco in about sixtydays. This will score three trips for the vessel without delay or accident. On her last trip to New York she carried some 10,000 packages of dried fruits and delivered them in perfect order.

The Mineola has already been berthed at San Francisco, and the agents are receiving cargo for the return trip on which the vessel will start about June 10. In accordance with the new landing arrangements she will call at Redondo on her way south. The agents anticipate large shipments of beans, asphaltum, wool, wine and honey, and it is possible that, if sufficient encouragement is offered, the Mineola may put into Santa Barbara to receive ship-

The steamship Progreso of the same line is now taking cargo in New York for this Coast, and expects to sail about May 10. She has already received about 1000 tons of freight for Los Angeles. This is encouraging as it shows rapid development of the trade. The largest cargo for this port hitherto received by any single steamer of the line was about 875 tons. It also confirms the good judgment of the owners in changing their Southern California point of debarkation from San Diego to Redondo. As yet there is no record of any cargo being received for San Diego merchants, and the presumption is that they are sulking in their tents. This is wrong, and hardly reciprocates the spirit manifested by the Los Angeles nerchants when San Diego was the landing point. It shows that with the San Diego people "local patriotism" ranks above loyalty to the general commercial interests of the State, and that the millennial period when we were going to make a long and strong pull together to free ourselves from the thralldom of monopoly by sea and land is

still a long way off. While the subject is up we may be permitted to say that it has been a matter of some wonder why the San Francisco merchants who are seeking to break the chains of the railroad and Pacific Mail monopoly have raised such a hue and cry about starting a steamship line of their own when here is an independent line ready at hand to serve their purpose, and which with due encouragement may be rendered very effective. An old Latin saw runs somewhat to the effect that we should accept the goods that the gods provide. There is another more modern saw that a bird in the hand is worth two in the bush. An interesting fact is set torth by the Portland Oregonian (Rep.) in this; "Should Ben'amin Harrison and Grover Cleveland be the opposing candidates for President this year, as now seems aitogether likely it would be the first instance in fifty-two years and the third in the history of the Government of a second race for the Presidency between the same competitors. Thomas Jefferson and John Adams were the opposing candidates in 1786 and 1800, and Martin Van Buren and William Henry Harrison in 1836 and 1840. In both those cases the man beaten the first time was successful the second. Andrew Jackson and John Quincy Adams were indeed candidates for President both in 1824 and 1828, but in the former contest there were so many Ben'amin Harrison and Grover Cleveland for President both in 1823 and 1828, but in the former contest there were so many candidates it was so much of a scrub race that no two could properly be called com-petitors. And then there was no choice by the people."

Fred D. Mussey, a well-known Washing ton correspondent, has this to say ab ton correspondent, has this to say about the question of absorbing interest now before the country: "All things considered, there is about as much harmony in one party as the other on the matter of head of the ticket. There is certainly unrest and disquiet among Republicans, and a casting about among some disgruntled ones Although the belief is that Mr. Harmony will be nominated at Minneapolis, the casting about among some disgruntled ones. Although the belief is that Mr. Harrison will be nominated at Minneapolis, the day has gone by when the nomination can be looked upon without a contest. There will be a contest at Minneapolis, and a lively one, and potential forces are at work now to bring about that result. Mr. Harrison can get the nomination only through winning the victory in a hot fight. There will, from present appearances, be no silver platter or gold sugar-tongs in the business. This, as fairly as I can state, is the political situation today.

whiskered Peffer, in a recent Washington interview, said he had not abandoned a single Republican principle, but had added free coinage of silver to his banner. The Kansas Senator then advanced this startling proposition: "If the Republicans at Minneapolis would unequivocally indorse free coinage of silver and nominate a man like Jones of Nevada, who could be relied upon as honestly carrying it out, I would not hesitate one moment to indorse the Republican ticket or its platform, and go among the people of Kansas and support it." This plan pleased the Senator so much that he warmed up to his opportunities for fame and fell to story-telling. One anecdote ran thus: "I will always remember the last talk I had with Senator Plumb. He wanted me to affiliate with the Republicans, when I replied: "Now, Senator, just let me have my play out. You have seen a horse turned out in a field and he would run, kick up his heels, snort and have a fine time. He did not want to be caught until he had finished his play. Just let me finish my play.' This anused the Senator very much, and he indulged fin a hearty laugh and added, with a kindly intonation, 'Well, go on with your play.'' Whiskered Peffer, in a recent Washing

My gentle Shepherd, Lord, thon art, No want my life shall know: Thou makest me to rest apart, Where the green pastures grow.

Leading by waters still and deep, Thou dost my soul restore; The paths of righteousness I keep, Since thou dost walk before.

And though through valleys dark I str And shades of death appear, Since thou art with me in the way No evil will I fear. Thy rod and staff they comfort me;

My table thou dost spread; My cup runs over; royally Anointest thou my head.

Goodness and mercy follow me

If a small boy should be found with a roll of \$1000 in his possession, the presumption would be that as he could not possibly have earned so large a sum he must have stolen it, and he would be must have stolen it, and he would be immediately and unceremoniously taken by the coat collar and made to give an account of how he came by the money. We respectfully submit that when a grown man is found with \$1,000,000 in his possession it is equally safe to assume that he did not come by so large a slice of the national wealth by any public institution. Probably Arizona, ship line in the water. It is easier to fight the monopoly with something altered each public institution. Services at the English Lutheran Church.

AT THE CHURCHES.

The Farewell Sermon of the Pastor, Rev. C. W. Heisler.

Dr. Thompson's Able Discourse "Dreams and Vistons."

Regular Services at the First Bap. Trinity M. E. Church.

gathered at the First English Lutheran Church yesterday morning to listen to the farewell sermon of Rev. C. W. Heisler, who for the past five and one half years has been the pastor of this society. When M. Heisler first assumed charge of the society in October, 1886, it numbered but twenty-three members, and the services were held in a hall on Spring street. Since that time the membership has increased to 126, and the beautiful little church, corner Eighth and Flower streets, has been built and paid for with the ex-ception of about \$3000. This church, in point of elegant finish and artistic architecture. has not its equal in the city. The richness and beauty of its interior, with its handsomely carved pews, its elegant carpets, its artistic frescoing and beautifully stained windows made it an ideal house of God—a fit temple for the worship of the Most High. During his ministrations here, High. During his ministrations here Mr. Heisler has wonderfully endeare himself to the hearts of his people and to hosts of friends outside his church, many of whom were present yesterday morning to hear his farewell words, and his failing health. Last year he spent several months in the mountains, and came back to his work after this vaca-tion with renewed strength and zeal, but that strength soon failed and a change of climate was found to be imperative, hence he has accepted a call issued many times before from Colorado, hoping that the mountain air will fully restore him to health.

During his pastorate here Mr. Heisler has preached 399 sermons, baptized 52 people, officiated at 34 funerals and as people, officiated at 84 funerals and as many marriages, and made 1915 pastoral visits. In this time the church has paid for minister's salary and general running expenses \$4429.26, for benevolences \$455.55, on church property \$12,139.92; the Sunday-school has raised \$783.43, making a grand sum total of \$17,807.96, which this little band of 126 people have raised in that length of time length of time

Rev. Mr. Heisler's sermon yesterday norning was based on Acts xx:31-32, words from St. Paul's farewell address words from St. Paul's farewell address to the Ephesian elders at Miletus. Very tenderly, very earnestly and pa-thetically did the young minister bid farewell to his loved people, even as did the veteran St. Paul in that ancient city. He exhorted in turn the young members on whose heads his hands have been on whose neads his hands have been laid in holy confirmation; those of riper years with whom he has taken con the elders, deacons and trustees of the church, and commended them all to the care of Him in whose honor and for whose sake all this work has been done At the close of this sermon the choir, led by Mrs. Horton, sang with pathetic sweetness, "When Shall We Meet Again, Meet Ne'er to Sever"? Mrs. Horton also sang a beautiful solo during the service. The altar was beautifully decorated with flowers, including many exquisite floral pieces, a harp, lyre and anchor of roses

Mr. Heisler and family leave for Colorado via San Francisco next Wednesday. On Tuesday evening the ladies of the church will tender them a reception, to which are most cordially invited the many friends of Mr. Heisler. The affair will occur in the church.

A call will be issued to some minister to fill the vacant pulpit as soon as prac-ticable; in fact there is one under consideration now. Until that time, beginning with Sunday, May 8, Rev. Mr. Moser of San José will take charge of

Dr. Thomson's sermon yesterday morning on the attractive because mystical subject, "Dreams and Visions," was listened to with rapt attenton by a large congregation, that crowded the large congregation, that crowded the church to its capacity. The subject was treated with all the eloquence and per-suasive power characteristic of the learned doctor's efforts. For next Sunday the discourse is an-

nounced to be upon "Elijah's Fire Test Between Jehovah and Baal on Mount Carmel."

Rev. A. C. Arthur, pastor of the Tem-ple Stres Christian Church, preached an able and instructive discourse yesan able and instructive discourse yesterday morning, taking for his text, "All things work together for good to them who love God and who are called according to His purpose." This subject is a universal favorite among Christian people and shows the special providence of God over his people. It is so simple as to hardly be explicable. This offer is restricted to two classes to them that love God and to the called according to His purpose. Here we find the divine and the human element in our religion running side by side. Those who are called refers to God's plan for human redemption; this was an eternal call and was through our Lord Jesus Christ. He is the lamb slain from the foundation of the world. This call was tion of the world. This call was extended to the whole world; for God willeth not that any should perish, but that all should come to life. This is : beautiful conception of our religion the ages for the simple end of saving men. Those who are called according to His purpose are predestined to be conformed to the image of his Son, so that the predestination of Romans is restricted to those who are conformed to the image of His Son; to those who are called in Christ. The human side of this text represents those who love God, evincing the fact that man has a part in this salvation as well as God. Those who love Christ will keep his commandments and will have the comforter, the Holy Spirit to strengthen, sustain and help them; thus we see this promise is restricted to those who are called of God in Christ Jesus and love him and serve him in sincerity and Those who are called according

him and serve him in sincerity and

Paul, the grandest exponent of Christianity in human history, utter this promise. Christians should sustain an promise. Christians should sustain an attitude of joy and thanksgiving that they are the objects of such surpassing love and mercy; that God will withold no good things from them; Christians should submit to this providence of God for he knows what is best for our good; we should let the protection of the everlasting God be about us, trusting in it implicitly that there may be no question but that we shall be under the power and the inspiration of the smiles and the approval of God. An unusually large congregation

power and the inspiration of the smiles and the approval of God.

The speaker closed with an earnest appeal to sinners to accept this Jesus through whom we may all be called of God to join in the everlasting joys of the eternal city of God.

TRINITY M. E. CHURCH. Dr. Liofilo Day yesterday delivered a stirring historical discourse at Trinity Methodist Episcopal Church, South, on Broadway. Dr. Day is pastor of a Waldenses church in Rome. He said that the Waldenses had done three things for the church. They preserved the Bible from destruction; they distributed the best of the church of th uted Bibles to surrounding people, and they preserved the true faith. They have only done their duty, but that duty was done amid persecutions and cruel suffering—a handful among many. They have 137 missionaries. These are pastors, teachers and laymen. Among their small number they raised Among their small number they raised last year for missions \$17,000. In Florence a bishop's palace has been converted into a Waldense church. In another a large theater has been converted to the same use. So on in almost all the great cities of Italy and Sicily they are pushing vigorously forward.

IMMANUEL CHURCH.

In anticipation of the Mill's meetings Dr. Chichester preached a powerful sermon vesterday morning from Second sermon yesterday moraing from second Kings iii:16-17: "Make thisvalley full of ditches. For thus saith the Lord, ye shall not see wind, neither shall ye see rain; yet this valley shall be filled The theme was, "Preparing for Spir-

itual Blessing." Such points were dwelt upon as intense desire, large expectation, earnest prayer, repentance for sin, brotherly love and individual effort. God does His part only, after man has done his, and if the ditches of preparation are faithfully dug they will not long remain empty. The ex-hortation, therefore, was to make ready for the coming of the divine spirit. Clear the way and open the trenches, casting out the rubbish of pride and selfishness and unbelief. The sermon was a trumpet blast, brave, strong and timely, giving the key-note for success-ful cobperation in the great evangelistic movement so soon to be inaugurated. ST. JOHN'S CHURCH.

The children's flower service at St. John's Episcopal Church yesterday afternoon was a great success, the children bringing over 200 elegant bouquets, which were afterward sent to the County Hospital and distributed by a committee of the ladies of the church The prizes were all awarded to the most deserving, some thirty elegant books being given to the children as rewards for progress in the Sunday-school. The church was packed to the doors, and an allegorical sermon was preached by the rector illustrating the Christian life. The Sunday-school offerings during Lent have been devoted to the cause of missions, and have aggregated between \$60 and \$70. Work has commenced on the chancel of this church, and will probably be finished in a month. A strong choir of twelve voices rendered the music of the services yesterday.

SALEM CHURCH

Yesterday at 11 o'clock Bishor Thomas Bowman, bishop of the Evangelical Association, preached in Salem Church, No. 720 Olive street, preach ing a most remarkable sermon to a full house, choosing for his text Collossians

iii, 3-4.

The able speaker spoke first regarding the resurrection of Christ and His teachings, dwelling also on the passage where the Savior warned the people

against laying up treasures on earth.
The bishop lead his eager listeners
from topic to topic, showing the brevity
of life, the work to be done, demonturing the beauty of the Christian re ligion, how it ought to bring a heaven on earth to every believer, and they who find no heaven here need not ex-pect one in the hereafter.

"As the tree falls so it lies, As man lives so he dies." The gifted speaker related in most touching tones the reality of life and death. Christians are not those who

only go to church to enjoy themselves, but the true Christian is a worker. The bishop, with his pathos, moved his audience from time to time to tears. Long will be remembered the words spoken by this talented embassador of Christ. He leaves tomorrow for Sacra-

CENTRAL CHRISTIAN CHURCH.

The eloquent evangelist, Frank A Wight, preached on Sunday morning to a crowded house, at the Central Christian Church, upon "The Successfu Church." A church, as it should be, will be in favor with the people. Looked upon from one standpoint, the life of Jesus Christ upon earth would appear to have been most miserable, but from the true point of view we see that it was a life of mercy and of joy. So with the church, its real mission so with the church, its real mission upon earth is one of mercy and love, and if the church is not in favor there must be something wrong with its ministers. If people understand Jesus Christ they will even rejoice in pain and shame suffered in his name. The passages of scripture quoted give a glimpse of the successful church, and upon this topic the evangelist enlarged. FIRST BAPTIST CHURCH.

A very large audience was pres the morning service. Rev. C. H. Ho-bart, pastor of the Baptist Church, Oakbart, pastor of the Baptist Church, Oakland, was introduced by the Rev. Dr. Read, and preached a most excellent and practical sermon from Genesis xi; 31-32. There are few sadder passages in the Holy Writ than that which closes this thirty-second verse: "And Terah died in Haran." He He is a type of a large class of Christians. First the purpose; There were two arms of this purpose; to leave Chaldea, to go to Haran. The people were almost all given over to idolatry. It required much to live a Godly life amidst such surroundings and yet God's own child can live a true life anywhere. Obadiah loved his God. Moses in the wilderness was true. Daniel in Babylon kept his windows open toward Jerusalem. Faithfulness to God brings great reward. Second, a God-given purpose. It involved self-sacridee.

humility and take our affections off the things of this world and make us long for the home above. We see this principle examplified in Joseph, whose life shows the mingled waters of joy and sorrow; in Moses, who passed through the valley in order to reach the summit, and the life of the Apostle way to get to Heaven, but are like the fond mother who wants her children to have the measles and have done with it, they want to have it light. The man who lives nearest to God finds the greatest blessing. Self denial for Christ means a great recompense, but it must be a denial that hurts. Terah's purbe a denial that hurts. Terah's purpose was to go to Canaan. This land was a type of rest, but it meant great denial to leave Chaldea and go to Canaan. Many propose to go, but how hard to make the start. How many of us have resolved to lead a better life, and to go to Christ but the years drift. and to go to Christ, but the years drift on and their close find them still out of Christ.

The Sunday-school was never in so prosperous a condition as at this time. Yesterday morning every one of its twenty-six officers and teachers were present, while the total attendance of the twenty-six officers and teachers were present, while the total attendance of the school was 277, the largest since it was organized, March 28, 1875. The following are its officers and teachers: Superintendent, W. G. Shaw; assistant superintendents, F. J. Cressey and J. T. Fitzgerald; secretary, Dr. F. M. Parker: treasurer, Dr. J. H. Burks; pianist, Miss Grace G. Hubbard; librarians, J. H. Burks, and Charles A. Rece: principal primary department, Mrs. F. J. Cressey: assistants, Miss Stella A. Cressey and Miss Ada M. Last evening the closing meeting of the convention was held at Immanuel Church, vention was held at Immanuel Caurch. The President of the Executive Committee, Mrs. Thomson of San Francisco, gave an admirable address, setting forth the needs of a Young Women's Christian Association. Maj. Hilton followed with a short address.

Dr. Seofilo Day, recent president of the Rome (Italy) branch of the Y.M.C. A., addressed a meeting of men in the auditorium of the Y.M.C.A. Sunday afternoon. He took for his subject "The Gospel in Rome." During the course of his address he spoke of the successes and failures of the gospel in Italy, and after centuries of persecution it had finally triumphed. Where it was once impossible to even smuggle a Bible into the country, the Bible is freely read and distributed throughout the whole of Italy today, and the persevering and untiring efforts of the Waldenses Church (of which the lecturer was a representative) were at last crowned

ith success.

Mr. Hays kindly assisted with a vocal solo. Dr. Campbell, of the First Methodist Church, speaks next Sunday. FIRST CONGREGATIONAL CHURCH.

The First Congregational Church presented an inviting welcome to those who were seeking a place of worship yesterday. The pulpit was a mass of pure lilies, the arch behind the choir wreathed in the dark green of the ivy, while roses and carnations lent their bright colors to the scene. The new chorus choir, under the leadership of Mr. and Mrs. Cogswell, was an attractive feature, the solos rendered by J. B. Brown being especially good.

The pastor preached a sermon, pre-paratory to the evangelistic meetings in prospect, under the leadership of Rev. B. Fay Mills, the large congregation first voting unanimously to co-operate heartily in the union of all the churches. PACIFIC GOSPEL UNION.

Another free Sunday morning breakfast was given by this mission to about eighty poor people. Maj. Hilton gave an interesting talk on verse 17 of the 9th chapter of Mark, "Master I have nto thee my son, whi

The new branch mission, No. 1, located on the corner of Ducommon and Alameda streets, held a very interesting meeting in the evening, conducted by George J. Binder. Their Annual Convention Opened at Chicago.

New York-Mme. Blavatsky's Ashes -Papers Read.

By Telegraph to The Times.

CHICAGO, April 24.—[By the Associated Press.] The annual convention of the theosophical societies of the United States opened today. It is important as it is the first held since the death of

Mme. Blavatsky and because of the resignation of President Olcott, who was chosen president for life. Before proceeding with the business of the morning session, a resolution ex-

of the morning session, a resolution expressing deep gratitude to the departed leader, Helen P. Blavatsky, was adopted. In view of the fact that President Olcott after her death divided the ashes of Mme. Blavatsky between the Indian, European and American sections, it was decided to indorse the permanent headquarters in New York, where the American portion of York, where the American portion of the ashes should be kept in a suitable

It was also resolved to give financial aid to the Blavatsky memorial, which is to take the form of publications look-ing to an ultimate union between the Orient and Occident.

General Secretary of the European General Secretary of the European Section Mead read several letters from that section. The resignation of the president-founder, Col. Olcott, was acted upon by the adoption of a resolution declaring the office of president-founder forever unique and unanimously declaring its choice as successor to the mere presidency to be William G. Judge, to hold office for life. This is the same action as has already been taken by the European sections. Bertram Keighthy was chosen vice-president in case Judge is made president, which he is not to be, if as provided in a further resolution, Olcott will withdraw his resignation.

Saving Girdled Trees.

[Oroville Register. Most persons who find valuable fruit trees girdled by gophers, or from any other cause, consider the trees lost. Charles Charvet of Thermalito told us this week how he recently saved a five-year-old budded orange tree that had been completely girdled by gophers, and fully three inches of the bark and fully three inches of the bark stripped from the trunk. He put a rope under the limbs so as to support the weight, and propped up the tree with four stout sticks. He then dug away all the earth from about the roots till the girdled section was fully uncovered, when he took some common rubber paint and with a brush gave the trunk a coat of this paint, completely covering the section that had been stripped of its bark. He then quickly covered the roots with earth, not having them exposed any longer to the sun than possible, removed his props and rope and left to the tree to live or die. It was in full bud when he tried the experiment, and it has continued to bud and bloom, and its leaves appear as fresh, green and bright as though the tree had never been injured.

The Tall Hemet Dam.—"Yes, sir, work is going right along on the Hemet dam," said Col. E. L. Mayberry. "Of course, up in those San Jacinto mountains it was pretty cold in the winter, and the only work we could do was to get out stone ready for the masons to lay when the weather should get warmer have resumed stone laying and I think the dam will reach the seventy-five foot level this year, and maybe get up to 100 feet. Next winter we will close

the dam and begin storing water."

To Get the San Fernando Land.—"We are getting lots of signatures to our petition to the General Land Commissioner, asking him to look into the titles of the San Fernando lards," said J. D. Good Prospects.—"We have had plenty of rain," said General Freight and Passenger Agent S. B. Hynes of the Southern California road, "If we don't get another drop this season the crops will all do well enough. The prospects are that freight business this year will exceed that of last year. In fact, Southern California's prosperity is increasing right along."

A FEW EXTRA SALESPEOPLE WANTED.

Apply early Monday morning. There is a reason for this and a good one. No business in this city today is showing the increase. Cloaks increased two and one-half times over one year ago. Corset 50 per cent. Dress Goods, Notions, Wash Goods—all show larger and increasing gains. More liberality in business, more accommodating salespeople. We are building up by treating the public most liberally. Ask any traveling salesman, and he will tell you this house is being more favorably spoken of than any house in this city today. The Big Millinery Department most favorably spoken of. Best styles in trimming, Artistic work in every way. Most accommodating salesladies. Reasonable and just profits. The Big Cloak Department most highly spoken of and recommended everywhere. Largest variety of styles, reasonable and just profit. One price, plain figures. You are safe in our Big Cloak Department even if you are not posted, and who is? The greatest Corset Department. The largest gains ever made. The reason why: We sell Royal Worcester Corsets. They are favorably known all over this country. Dress Goods-largely increasing sales. larger stocks, better variety, goods that are popular in price and accommodating salespeople to wait upon you. Every courtesy is shown to competing merchants. Help will not be employed away from other merchants. No underhanded games to provoke the ill-will or criticisms of our competitors. We have turned over a new leaf. This business is being run on the broadest gauge track. The most liberal in every way. We want the good-will of all merchants. We want the good-will of all traveling men. We want the good-will of the general public. We are not cutting prices to lower the standard of business and to provoke unfriendly feeling. We aim to give better treatment; mark goods at a just and paying profit, and to pay no attention to what others are doing. Upon this basis the business of this house is showing the largest gains ever made by any business house in this city.

DR. WOH,

Dr. Woh's life work has been from early youth one of persistant and untiring observation, study and investigation, to perfect himself with knowledge and experience in his chosen profession. After several years of active practice in Los Angeles, during which time he cured permanently and completely thousands of sick patients and made hosts of friends among the California people, Dr. Woh resolved to visit and investigate the practice of the most celebrated medical colleges and institutes in the United States. From this trip he has now returned to his old office after an extended tour East, having visited the great schools and hospitals of New York, Chicago and elsewhere, gaining much experience. Dr. Woh is a thorough genticman, a fluent Ragilah speaker, besides being a most successful healer of human sickness and diseases of every nature. actice in Los Angeles, during which time he cured permanently and com

For a long time I have been suffering with bladder and kidney troubles. No doctoring or medicines seemed to do me good. I consulted the best physicians and surgeons in Los Angeies city. They gave me morphine and dryugs, but no relief could I be tain. After suffering great pain and having my passage almost entirely clogged I, fourteen days ago, began using Dr. Woh's medicines. Today I am perfectly well, I do consider Dr. Woh the most successful physician in Southern California. C. A. STEELE, 316 and 318 S. Main st., Los Angeles, Cal. October 13, 1891.

Dr. Woh was recommended to me by a friend. I had been troubled for years with indigestion, causing fearful headaches and vertige, making my life one of misery. I tried and paid the best physicians without relief. Finally, to please my friend, I vis tied Dr. Woh at his office, and he advised with me and gave me medicines. This was but six weeks ago. Today I can gladly and sincerely say that he has entirely cured me, sincerely say that he has entirely cured me, and the proposition of the p

THE NATIVE SONS.

Arrival of Delegates to the Grand Parlor.

The Reception at the Arcade Depot Yesterday Afternoon.

A Cordial Greeting Extended to the Honored Visitors.

List of Delegates to the Grand Parlor Which Meets Today—The Reception This Evening-Attractive Programme Arranged.

There is something very appropriate In a meeting of the Native Sons of the Golden West in a city which was founded long before any of these native sons were born-more than half a century before California was admitted to the Union, and shorly after the signing of the Declaration of Independence. Los Angeles was a flourishing pueblo when the only native sons within the borders of California were of Spanish blood. For a short time it was the capital of the State, long before the first bear flag-seen so numerously on our streets today-was raised.

For a couple of weeks past preparations have been under way to give a fitting reception to the delegates to the fifteenth annual meeting of the Grand Parlor, N.S.G.W. The streets of Los Angeles have gradually been assuming a festive appearance. Multi-colored flags, bunting, palms and flow-ers have blossomed out on all leading

thoroughfares. The decoration has been very general. Few leading business houses but have some characteristic adornment. The bear is omnipresent, in many varied attitudes, rampant, couchant and otherwise. The Committee on Decorations consisted of A. Ramish, chairman; N. W. Quirolo, F. W. How, Will B. Gard, O. A. Weid and J. R. Eckstrom.

and J. R. Eckstrom.
Yesterday was a typical Southern
California day. The heat of the sun,
which shone from a cloudless sky, was
modified by a gentle ocean breeze. A
large crowd thronged the platform of
the Arcade depot as early as 3 o'clock.
There were members of the Reception
Committee, with their handsome crimson and gold badges, resident Native
Sons, and citizens with their families,
awaiting friends among the visiting
party. The report had, in some manner, become current that two Pullmans, ner, become current that two Pullmans, filled with Native Sons, were to arriva on the regular San Francisco train, due at 8:15 o'clock. The train was late, and did not arrive until 8:49. When it came in there were only a few stray delegates on board. Another wait of ten minutes and the special train of eight Pullman cars rolled into the station, punctual to a minute, at 4 p.m. At Mojave the train had been an hour and three-quarters late, but time was made on the stretch from that point to Los Angeles.

Los Angeles.

A delegation of the Reception Committee had gone up to Tehachepi on the previous evening and boarded the special at that place. They took with them fruit and flowers, which were distributed among the visitors. It had been arranged that a delegation of Native Daughters should go up to greet the guests at Burbank, but owing to the lateness of the train no stop was madethere, and delegation did not leave.

As soon as the train pulled into the

As soon as the train pulled into the depot, Douglas's band, dressed in new and gaudy uniforms of yellow, trimmed with red, struck up a lively air. The Reception Committee guided the delegates to the electric cars, half a dozen of which were in waiting, handsomely decorated with flowers, palms and dra-pery. The band took seats on the first car, and as many delegates as could sit. stand or hang on took places on the following cars. The band began to play and the cars moved off up town. Many who could not find room on the leading cars waited for others, which quickly followed. Rooms were found for the visitors at the various hotels, each leading hostlery of the city get-ting a quota. The delegates were glad to rest after their long journey. It had been quite warm on the train. Drink-ables of all description were exhausted, even to the ice water. The Committee on Hotels, which looked after the com-fort of the guests, consisted of J. C. Foy, chairman; Eugene Maxwell, An-thony Schwamm; W. F. Nordholdt, W. J. Variel, C. D. Houghton and N. M. In many cases delegates, although

born in the State, had never seen Los Angeles, its oldest city of importance. It was interesting to hear their comments. Evidently many of them had imbibed an idea which is widely enter-tained up North, that this is somewhat of a "busted" community, and a more or less moribund city. The remarks

or less moribund city. The remarks about our streets—busy, even on a Sunday—business blocks and general air of prosperity were punctuated with exclamations of surprise.

The programme for the entertainment of the guests, as at present outlined, includes a reception this evening at the Los Angeles Theater, when Mayor Hazard will deliver an address of welcome on behalf of the citizens; responses by J. D. Sproul of Chico, Stephen M. White and others. The Romandy orchestra will furnish the music. R. F. del Valle will deliver an address of Welcome to all the parlors. music. R. F. del Valle will deliver an address of Welcome to all the parlors. The response will be by Grand President R. M. Fitzgerald. Miss Ellen Beach Yaw and Al Hawthorne will sing.

Beach Yaw and Al Hawthorne will sing. On Wednesday there will be an excursion over the Santa Fé's Kite-shaped track, leaving Los Angeles at 8 a.m. via Pasadena. At San Bernardino the Native Sons of Arrowhead Parlor will extend hospitalities, including lunch at the city pavilion. At Redlands there will be an hour's drive about the country, another hour will be spent at Riverside. Riverside.

There is talk of a procession on Thursday, but nothing has yet been definitely arranged

There is talk of a procession on Thursday, but nothing has yet been definitely arranged.

Friday evening there will be a banquet at Turnverein Hall, which promises to be a grand affair.

If is said that Thomas F. Flint of San Benito has the best chance to be elected grand president. For vice-president the principal candidates are John T. Greany, Joe D. Sproul and Leon Dennery. Bouthern California will ask the office of grand trustee for either Stephen M. White of Los Angeles or H. A. Keller of San Bernardino. For grand treasurer there promises to be a contest between Henry S. Martin, incumbent, and Richard Doolan. For grand secretary Henry Lundstedt is said to have it all his own way.

Following is a list of the delegates to the annual seasion. Some came during the past few days. On the special train, heartly, there were \$355. Altogether,

there will probably be nearly 500 visit-

ing Native Sons and their families in Los Angeles today:

restimony of Col. H. G. Otis on the Seal Industry-The Result of Three Years's Actual Experience on the Islands.

As already stated in THE TIMES, Special Agent J. F. Evans, of the United States Treasury Department, stationed in San Francisco, is now in Los Angeles with instructions from Washing ton to take the testimony of Col. H. G. Otis, formerly Special Treasury Agent in charge of the seal islands of Alaska in 1879, 1880 and 1881. This testimony is designed for use in the arbitration case now pending between the United States and Great Britain, and is aken under the immediate direction of the Secretary of the Treasury, but for the benefit of the State Department. The aim of our government will be to show that the former great abundance and prime condition of the seal life in Bering Sea was due largely to the legal protection afforded by the United States; to the general absence of poachlous care formerly exercised in taking seals for their skins; to the careful sparing of the females, and to the total absence from relative sparing of the s total absence from pelagic sealing in the waters adjacent to the islands.

Mr. Evans has already spent several hours, with a stenographer to assist him, in taking the testimony of Col. him, in taking the testimony of Col. Otis, and will today complete and transcribe the testimony taken. The subject was gone into at length. Official reports made in 1879, 1880, 1881 and 1882 were brought out, the condition of the seal rookeries and hauling grounds at that time was shown, and the vast abundance of fur seals there was compared with the scant numbers now. The testimony taken goes to show the inevitable result foreseen by the Government agent twelve years ago, namely, that the withdrawal from the Seal Islands of the fullest protec-tion, and the admission of foreign and American poachers into the natural home of the delicate and sensitive fur seal, to prey upon this precious animal life, could only end in the ultimate de-struction of the breeding rookeries and the practical extinction of this invaluable race of fur-bearing animals. The trend of the testimony given by Col. Otis was all in the direction of maintaining the contention of the United States against Great Britain. He expressed the view that our Government should long since have joined with Russia in a strong naval alliance for the protection of the mutual inter ests of the two nations in the waters and islands of the Bering Sea. The government of the Czar still exercises jurisdiction over the islands of the Commander group—towit: Copper, Bering and Kommandersky—which lie in bout the same latitude near the Siberian shore, and which are also natural

resorts of the fur sealing.

Special Agent Evans, who is a trusted officer of the Government, will leave for San Francisco as soon as his mission to Los Angeles is completed.

"I had boils break out on my neck. One had bursted. I took Joy's Vegetable Sarsaparilla and in a few days the other boils had dried up. In the spring of 1890 I took one of the other Sarsaparillas and the result was a mass of pimples. Hearing that Joy's was later and acted differently I used it this year with the above satisfactory results."

Don't Move the Terminal Station too Far Away.

A Week in Which Will Be Crowded Much Gayety.

The Choral Society Concert and the W R. C. Flower Festival-Bait Club Headquarters-Personals and Brevitles.

[Branch office, No. 50 East Colorado street, where news, advertisements and orders for The Times are received.]

It is given out that the Terminal road proposes to build a new station at the ner of Pasadena avenue and Colorado street. If this site is finally decided upon s to build a new station at the corthere is good reason to believe that it prove a mistake, and this opinion is shared by the great majority of the traveling pub-lic. This road is popular and does a big business, not only on account of its frequent and rapid train service, but also be cause of the central location of the presen quent and rapid train service, but also because of the central location of the present station. Move the station out to Pasadena avenue and there will be a sure failing off in patronage. It is only a difference of about two blocks, and while the change would be satisfactory to a small portion of the west side residents, nine out of every ten business men and everybody living on the east side would be incommoded, in which case a considerable proportion of the present Terminal patrons would be found riding on the Santa Fé. If the Terminal managers are wise—and we believe they are—they will at least build the new station not further west than Delacy street. This, it seems, could be done, and at the same time permit the sharp curve to be lessened as much as need be. Keeping a firm grip on the bulk of the Pasadena passenger traffic to Los Angeles is more important than a straight track to Altadena,

Conches piled with pillows being quite the rage, many ladles are now engaged in drying rose leaves for filling them. Instead of indulging in and afternoon siesta uwon a pillow of odorous pines one can repose upon a potpourri of roses.

Thatched roofs are always picturesque, and one sees many driving in this city. A little adjoining valley with its few scattered homes and thatched pens for the cattle is like a bit of Germany. One sees not only straw but maize stalks, and even palm leaves utilized for roofing.

The saying that there is no place like California for meeting one's friends is a trite one. Its truth was verified here yesterday when a lady from the East in making a call found no less than seven old acquaintances, two of whom had just arrived, to the visitor's entire surprise, from her native town.

The following programme will be ren-dered at the concert tomorrow, evening at the Baptist Church, given under the aus-pices of the Ladies' Aid Society:

THE OLD AND NEW GOD. Notwithstanding the dissipation of the reek and the large amount of labor in volved in preparing for and conducting the rose fair, the congregation was on hand yesterday to hear Dr. Wells's second sermon on the beliefs of modern Unitarians.

Dr. Wells has become so popular in this pulpit that he brings together at his Sunday morning services people from Riverside, Redlands, Colton and from out in the country in all directions about San Bernardino. Yesterday's subject was "The Old and the New Idea of God," and it was handled in Dr. Wells's usual masterly manner.

SANTA BARBARA COUNTY. Closing Receptions of Carnival Week— General News Notes. [Branch office, No. 713 State street, where news, advertisements and orders for The TIMES are received.]

Carnival week has come and gone, and in every material view has been a success. Now our people must again turn from the festivities, amusements and hilarities incident to such a gala occasion, to the serious business of life. The reception on board the Charleston given by the officers of the ship to the citizens of the city winding up with a reception at the Arlington on Saturday night to the officers, rounded out a full week of enjoyment. These were both largely attended, and acquaintances were made and friendships formed which will be

pleasant recollections in after years. The Charleston steamed out of the channel for Charleston steamed out of the channel for San Diego this evening.

By BLANCE WILLIS HOWARD AND WILLIAM SHARP, (Boston and New York: Houghton, Miffiln & Co.*)

The story in this little volume is told in the form of correspondence. The beautiful young girl wife goes to Rome infatuated with art and longing to make a grand name for herself through what she may achieve. Her teacher is a man of unusual talent and stands at a man or unusual talent and stands at the head of his profession in the imperial city. But he is thoroughly unprin-cipaled, a man who makes hearts his playthings and breaks them as he would a useless toy. Blinded by her admira-tion for his rare genius the young wife is unconsciously engaged by him, but is unconsciously ensnared by him, but is saved by the watchful love of her husband and the zealous watchfulness of one of his victims, and her heart is filled with horror and with shame when she sees the brink upon which she stood and the awful gulf into which she might have fallen. The story is chastely and vividly told, and is a moral lesson which it will do no harm for even the young to read who are unacquainted with life and the snares which are sometimes laid for the thoughtless and unwary, for the character of the un-principled man of the world is painted in its true colors and one can but hate

RAILROAD AFFAIRS.

A Slick Englishman Who Fooled Railroad Officials.

He Was Exposed by Talking too Much to the Papers.

Open Cars to Be Run on a Steam Railroad.

A Rival to Pullman's City-

General and Local Notes.

As was briefly stated in this pape vesterday, an allegation is made in a Chicago special dispatch to the San Francisco Chronicle that an Englishman calling himself C. H. Cook, claiming to be a superintendent of the London and Northwestern, has been syste matically victimizing prominent railroad officials in this country, and is supposed to be now in California. The way the Englishman "worked" astute railroad presidents like Chauncey M. Depew of the New York Central, George B. Roberts of the Pennsylvania, Roswell Miller of the Chicago, Milwaukee and St. Paul, and others equally well known and shrewd, reads like a fairy tale. It is easier nowadays for an Englishman to swindle raiload officers than it is for an American. although some of the latter have had the advantage of long practice. When an American applicant for a pass is suspected it is quite easy for the pass-giving official to send a telegraphic inquiry to the man's alleged harting place. This costs nothing and often saves humilating blunders, but the English miliating blunders, but the English swindler's home is not only further away, but the railroad officials cannot use the cable as inexpensively as they do the Western Union Telegraph Com-

pany.

This is why that young English jour-nalist recently enjoyed so many free privileges to and from California, and the alleged official of the London and Northwestern has up to the pres-ent reveled in passes bearing signatures of men enjoying, national reputations. In view of the fact that reputations. In view of the fact that English railroad presidents are very chary of extending any courtesies to visiting officials from this side of the pond, and that this man Cook did not pretend to a higher title than assistant of the London and Northwestern, the evident eagerness of the Yankee railroad presidents to load him down with road presidents to load him down with passes is laughable. If Cook had been content to deadhead his way over this country, and had avoided being interviewed by newspaper reporters his career would have been unterrupted for some time yet, but he talked too much, and his published utterances reached the eye of a real representative of the road eye of a real representative of the road in New York, who promptly bulletined the fellow as a fraud. Whether he has yet been in Los Angeles is not known, but the dispatch alluded to says he is now junketing in this State as a guest of the Southern Pacific Company OPEN STEAM CARS FOR THE FAIR.

World's Fair visitors who seek the grounds via the Illinois Central will experience the novelty of riding in open cars, the first of which is now being built at the company's shops at the foot of Twenty-fifth street. With the exception of a few minor details, the new car is an enlarged edition of the ordinary open cable street cars. The car is designed to seat 110 persons comfortably, although at least twenty-four more average-sized persons may be acmore average-sized persons may be ac-commodated with seats. The length of the vehicle over all is 53 feet, and from sill to sill 45 feet and 1 inch. The width is 8 feet inside, and the height from rail to roof 18 feet, 9½ inches. Across the ends of the car are seats, and there are, in the interior, ten double-seated compartments. Ten doorways open on either side into the aisles. steps or platform will be attached to the car. The World's Fair train will make no stops between Van Buren street and the exposition grounds, and the platforms at the terminals will be of the same height as the floor of the cars. In finish and workmanship the coaches will be of the same class as the suburban cars. The one difficulty to be overcome and which is giving the build-ers no little trouble, is the invention of an automatic device for quickly closing the openings to prevent passengers from falling or being pushed from the open doorways. A bar or guard-rail of some description must be thrown across the openings and it is deemed impracticable to have the bar shot horizon tally, as many persons would be apt to have their arms or hands in the way. The lever which closes the openings must throw the bar from a vertical po-sition so that passengers occupying end seats may see it descending and thus be warned in time to prevent accidents. It would not do to have one gate for each door, as too much time would be occupied in closing them, and if the company takes care of 60,000 passengers an hour, as it will endeavor to do, gers an hour, as it will endeavor to do, no time can be lost. After the fair the

cars will be used on picnic and race SCRAP HEAP.

An exchange suggests that a small place be set apart in baggage cars of passenger trains in which to place per sons who create disturbances on trains when under the influence of liquors, confining them until a town is reached where an officer can be found to take care of them.

An 1892 edition of the "Atlas of the An 1892 edition of the "Atlas of the Santa Fé Route" is out. This is the book which country school teachers offer as a prize to their pupils for model behavior. It contains perfect county maps of all States traversed by the Santa Fé and a volume of valuable and accurate information respecting the vast country penetrated by 9316 miles of track. of track.

The New York Central Railroad has commenced work on laying out the new town of Depew, which the company in-tends to build on the company's tracks, about five miles northeast of Buffalo. The new town will be built upon the principle of Pullman, Ill., but will start off on a grander and more liberal plan. The New York Central Company will erect its huge car and locomotive shops at the point of the new town, at the cost of nearly \$2,500,000. Then sev-eral hundred new, cozy and comforta-ble cottages will be erected for the use of the employés of the shops. The cottages will not be rented to the employés as in Pullman, but every employé will become the lord and owner of his little castle, as the cottages and lots will be sold at actual cost.

THE RIO VISTA MURDERER.

On Friday evening last Detective M. T. Bowler, of the police force, arrested a man, who styled himself as Ray Harris, on Main street, and, in spite of his protests and remonstrances, locked him

up in the city prison upon suspicion of being wanted for murder. Although there was nothing on which to base his belief in the fellow's identity beyond the fact that he answered to a description of the fugitive received from the north some months ago, the detective con-cluded to take chances, and he now has good cause for self-congratulation, for vesterday afternoon his prisoner adnitted that his right name was Lee

He is wanted for the murder of a man named Howard, a night-watchman in the employ of the Southern Pacific at Rio Vista, near Sacramento, on January 29 last, the particulars of which ap-peared at the time of the occurrence in all the daily papers on the Coast. The murderer escaped, but the finger of guilt pointed at Horrell and an accomguilt pointed at Horrell and an accom-plice, who assisted him in the burglary of the Southern Pacific depot, and a large reward was offered for their ar-rest. Shortly after it occurred a man was arrested here by Deputy Sheriff Russell, but the Sheriff of Napa county, who came down for him, failed to iden-tify the prisoner, who was thereupon turned loose. Bowler's captive, how-ever, has himself disnelled all doubts as ever, has himself dispelled all doubts as to his identity, although he denies all knowledge of the offense of which he is charged, and he will be taken north to-

After suffering for years with stomach trouble I was at last induced to try Dr. Wong Him, of No. 639 Upper Main street, Los Angeles. He examined me and pronounced my trouble tamor in the stomach. After two months' treatment, during which time i felt greatly relieved and benefited, he pronounced me entirely cured, and from that time to the present, which is four months, have not felt the least return of my old trouble. I am able to eat many things which formerly would distress me very mothing else than to recommend the doctor to all who can be induced to try him. I hereby extend him my most heartfelt thanks for his services to me.
